THE LOOK modern

Want this look?

Light, airy and dare we say, linear, this look works as well in the bush as it does in your favourite tree-lined suburb.

Paint weatherboards in earthy tones to accent the view, and in this award-winner, compliment with classic neutrals.

“The lightweight cladding materials look great... were easy to work with and they helped to keep the project on budget.”

Dale Hobley, H2 Constructions

Designer: Jamison Architects
Photographer: Angela Jamison
